### POPULATION AND DEMOGRAPHIC STATISTICS

Estimated resident population	1
Components of resident population growth, year ended 30 June 1993, preliminary	1
Mean resident population	1
Live births registered	2
Deaths registered	2
Marriages registered	2
Divorces granted	2
Overseas arrivals	3
Overseas departures	3

### LABOUR STATISTICS

Labour force status of the civilian population aged 15 and over	4
Civilian labour force, seasonally adjusted series	5†
Civilian labour force, trend series	6
Job vacancies by industry and job vacancy rate	7
Industrial disputes which occurred during the period	7
Industrial disputes which occurred during the period: working days lost, by industry	8
Industrial disputes which occurred during the period: working days lost, by States and Territories	8

### WAGES AND PRICES

Average weekly earnings of employees	9
Average weekly earnings of employees, States and Territories	9
Weekly award rates of pay indexes, full-time adult employees	10
Consumer price index: group index numbers, weighted average of eight capital cities	11
Consumer price index: all groups index numbers	11
Consumer (retail) price indexes: various countries	12
Price indexes of materials used in manufacturing industries	13
Price indexes of articles produced by manufacturing industry	13
Price index of materials used in house building	14
Price index of materials used in building other than house building, all groups index	15
Index numbers based on Australian and New Zealand Standard Industrial Classification (ANZSIC), weighted average of six State capital cities	15
Export price index	16
Import price index	16

† Contains seasonally adjusted figures

## ABOUT THIS PUBLICATION

The *Monthly Summary of Statistics, Australia* contains, at the time of printing, the latest available data on a wide range of topics. It provides a comprehensive overview of the economic and social conditions in Australia.

In the contents pages, tables of series containing seasonally adjusted indicators are marked with a dagger (†).

As well as being adjusted for normal seasonal factors, some of the statistical series included in the *Monthly Summary of Statistics, Australia* have been adjusted for the effects of calendar variation: namely, 'trading-day' effects (arising from the varying numbers of Sundays, Mondays, Tuesdays, etc. in a month) and the influence of movable holidays, for example, Easter and Australia Day.

Trend estimates are shown for some series in which the seasonally adjusted series have been smoothed to reduce the impact of the irregular component.

## SYMBOLS AND OTHER USAGES

The following is an explanation of the symbols used in this publication:

n.a.	not available
n.e.c.	not elsewhere classified
n.e.s.	not elsewhere stated
n.y.a.	not yet available
.	not applicable
n.p.	not available for publication unless otherwise indicated but included in totals where applicable
p	preliminary — figure or series may be subject to revision
r	figures or series revised since previous issue
—	nil or rounded to zero
—	break in continuity of series (where drawn across a column between two consecutive figures)
*	subject to sampling variability too high for most practical purposes.

Yearly periods shown as, for example, 1993, refer to the year ended 31 December 1993, those shown as, for example, 1992-93, refer to the year ended 30 June 1993.

Values are shown in Australian dollars (\$).

Where figures have been rounded, discrepancies may occur between sums of the component items and totals. Also, minor revisions to figures already published are not applied for periods more than one quarter prior to the quarter of publication. Hence, small discrepancies may occur between annual data and totals derived by summing the data for each of the four quarters.

Most of the original and all of the seasonally adjusted series are subject to revision.

## FOR MORE INFORMATION

The ABS has a far wider range of information on Australia than that contained in this publication. Information is available in the form of regular publications, electronic data services, special tables and from investigations of published and unpublished data.

Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

For further information about ABS statistics and services please contact any of the ABS offices (see the back of this publication).

(a) The estimates relate to all persons aged 15 and over except members of the permanent defence forces, certain diplomatic personnel of overseas governments, overseas residents in Australia and members of non-Australian defence forces in Australia. For definitions see Explanatory Notes in the latest issue of the monthly publication *The Labour Force, Australia* (6203.0). (b) Original labour force estimates are now based on population estimates obtained from the 1991 Census of Population and Housing. (c) The number of unemployed in each group as a percentage of the labour force in the same group. (d) The labour force in each group as a percentage of the civilian population aged 15 and over in the same group.

May	44	51	13.1	16.2	23.4
June	45	47	6.8	7.2	28.4

(a) Prior to September 1991 disputes affecting more than one industry and/or State have been counted as separate disputes in each industry and State and in the Australian total. From that time such disputes, while still counted separately in each industry and/or State, are counted just once at the broader industry and Australia level. (b) Disputes which occurred during the period encompasses those disputes which started in a previous month or year and ended in the reference period or began and ended in the reference period or began in the reference period and continued into the next period or started prior to the reference month or year, continued through the reference period and into the next period. (c) Comprises workers involved in disputes which commenced during the month and additional workers involved in disputes which continued from the previous month.

(a) The index numbers show fluctuations in prices in each country and do not measure relative price levels between countries. (b) Base year 1989-90 = 100.0. (c) Base year 1991 = 100.0. (d) Since 3 October 1990 no longer known as Federal Republic of Germany. (e) Industrial workers. (f) Base year 1989 = 100.0.  
(g) Base year 1990 = 100.0. (h) Base year 1982 = 100.0. (i) Base year 1988 = 100.0.

(a) These indexes replace previous indexes with a base year 1968-69 = 100.0. Refer to May 1990 issue of ABS publication *Price Indexes of Articles Produced by Manufacturing Industry* (6412.0). (b) These indexes are on a net subdivision basis. ASIC subdivision codes are shown in brackets at the head of the columns. (c) This index is on a net division basis and relates in concept only to articles which are produced in the Manufacturing Division of ASIC (Division C) for sale or transfer outside the Division.

(a) Includes natural gas. (b) Total electricity generated by establishments predominantly engaged in the generation of electricity. (c) This series replaces the previously published 'Iron and Steel in Primary Forms' and 'Blooms and Slabs from rolling and forging'. Changes in industry practices mean that almost all raw steel is now used to produce Blooms and Slabs using continuous casting methods. (d) For structural purposes. (e) Source: Australian Bureau of Agricultural And Resource Economics. Quarterly figures are expressed in terms of green off sawn volumes.

(a) Fabricated metal products, other industrial machinery and equipment and household appliances. (b) Wood, wood products and furniture (except sheet metal), glass, clay and other non-metallic mineral products, leather, rubber and plastic products and other manufacturing, n.e.c. (c) Finance, property and business services. (d) Excludes public sector and all enterprises classified to agriculture, forestry, fishing, hunting, and community services. (e) Includes industrial and commercial buildings, houses, flats and home units, etc., water and sewerage installations, lifts, heating, ventilating and similar equipment forming an integral part of buildings and structures, land and construction site development, roads, bridges, wharves, harbours, railway lines, pipelines, power and telephone lines. Also includes mine development (for example, construction of shafts in underground mines, preparation of mining and quarrying sites for open cut extraction and other developmental operations undertaken primarily for commencing or extending production). Excludes purchases of land or existing buildings. (f) Includes plant, machinery, vehicles, electrical apparatus, office equipment, furniture, fixtures and fittings not forming an integral part of buildings, durable containers, special tooling, etc. Also includes goods imported for the first time whether previously used outside Australia or not. Excludes goods previously used in Australia. (g) Communication, entertainment, recreation, restaurants, hotels and personal services.

NOTE: These statistics are designed primarily to measure trends in expenditure by private enterprises, on new fixed tangible assets. The statistics in this table differ somewhat from the item *Gross fixed capital expenditure* in the table on page 30 of this publication as a result of the different methods of compilation of the two sets of statistics.

(a) All figures are \$A values at end of period shown. Changes in the \$A value of holdings of official reserve assets in any period reflect both valuation effects and transactions. The latter include sales and purchases (including swaps) of, and earnings on, foreign exchange by the Reserve Bank of Australia and certain transactions with official institutions overseas. The foreign currency value of overseas assets is based, where applicable, on market quotations; accrued interest is normally taken into account. Conversion into \$A equivalent is based on end-month rates of exchange. (b) Gold is valued at the \$A equivalent of the 3 p.m. price fix in the London gold market on the last business day of the month. See also table on Official Reserve Assets and Exchange Rates in the Balance of Payments section, page 40.

(a) The figures in this table are derived from returns submitted by banks authorised under the *Banking Act 1959* together with similar returns voluntarily submitted by the State banks; they exclude the Reserve Bank. (b) All certificates of deposits issued by banks have been shown as resident deposits. (c) Includes issues of term subordinated debt, loan capital and similar instruments. (d) Excludes shareholders' funds. (e) Break in series due to establishment of new bank(s), which may have caused the switching of assets and liabilities from NBFI to banks. (f) Break in series due to the transfer of NBFI business to a bank. (g) Break in series due to reclassification of 'all other \$A liabilities' to 'other borrowings' by one bank. (h) Break in series due to a change in accounting procedures by a bank. (i) Break in series associated with the integration of a (former savings bank) subsidiary into its parent bank.

(a) The Statutory Reserve Deposit ratio for trading banks was set at zero on 27 September 1988 and balances transferred to non-callable accounts. On 12 October 1988, stand-alone savings banks made their first deposits under arrangements for all banks to hold non-callable deposits with the Reserve Bank. (b) Break in series due to establishment of new bank(s), which may have caused the switching of assets and liabilities from NBFI to banks. (c) Break in series due to the transfer of NBFI business to a bank. (d) Break in series due to a change in accounting procedures by a bank. (e) Break in series associated with the integration of a (former savings bank) subsidiary into its parent bank.

(a) Includes government-owned vehicles except those belonging to the defence services. Excludes plant and equipment, caravans and trailers. Data from December 1990 in this table is based on the System of Vehicle Identification Numbers (VIN) introduced by motor vehicles authorities from July 1990 onwards. The system allows more accurate identification and classification of newly registered vehicles and as a result there is a reduction in the level of new vehicle registrations, through better identification of duplicate registrations and those registered previously.
